I went to visit Jacobson Park and got to see how cool this park really is. This park offers various different activities for the entire family to enjoy. The coolest park of the park was just how spacious and open the park is even with all of its activities.

You can go fishing on the docks as the sun sets. You can play dis golf, soccer, basketball,volleyball and any other think of. I went to check out the basketball courts and they seem to fairly new. This is the type of park that you could spend the entire day at.
